CloneBD with license key lets you copy any unprotected Blu-ray to your hard drive, or any blank Blu-ray disc. With just a few clicks you can choose to make a partial copy of selected titles, audio languages, and subtitle languages, or you can do a straight 1:1 complete copy of your Blu-ray. CloneBD makes perfect 1:1 clones, but also compresses BD-50 to a single BD-25, BD-9 or BD-5. CloneBD will also convert your Blu-ray discs to all popular file formats, such as .mp4, .mkv, .avi, and any devices like Android, iPhone/iPad, Smart TV, or any other current device. CloneBD key supports all regions (A,B,C). There is no need to install a third party driver, since internal UDF 2.50 parser is already included. CloneBD supports multi-core CPUs and NVIDIA CUDA hardware acceleration for fastest copy speed.

3D Blu-ray and H.265/HEVC is not supported yet, but will be available soon.
