## Highlights of What's New in PDFelement 6

- \*Streamlined Office 2016 Design
- \*Friendlier User Experience
- \*Smarter, Faster Text Editing
- \*Smarter, Faster Text Editing
- \*Automatic Form Creation & Data Extraction

The most exciting introduction for PDFelement 6 are new data extraction tools. These are equivalent to other professional solutions — but are simpler and cost much less — empowering average users to extract data from PDF forms and tables into a spreadsheet without involving a java-script writer or learning to code. The software automatically recognizes form fields, validates the data, and helps you make corrections before it outputs the final file. You can even extract form data right from paper using OCR.
