

[YAC Anti-Malware Premium](#)

YAC (also known simply as Yet Another Cleaner / YAC PC Cleaner) is a small utility which is designed to remove common malware, browser hijacks and other nasty adware and virus you might find installed on your computer. The program features a very modern-looking interface which is easy to use and intuitive. By using YAC, you can check out browser hijackers, homepage settings and search settings. Further one from the Home tab, you can examine your computer, enable and disable home page protection, speed-up your computer.

With Yet Another Cleaner, you can simply detect the virus and adware with the function tabs "Virus Detection" and "Adware Cleanup". You can also detect virus and unknown threat within your computer with Quick Scan, Full Scan and Custom Scan models under "Virus Detection" tab. And it will never be a tough task to monitor your internet network and manage your applications or software installed on your computer.

Yet Another Cleaner (YAC PC Cleaner) is modern and more capable than some of the more known antivirus or antimalware programs and services. It's also free and safe, at the same time you can donate whatever you like.
